Tour character

The Tauern bike path runs from start to finish with no breaks in it. The route is also fully signposted. The route runs through quiet areas on paved paths and country roads. At times you will have to cycle along busier routes. There are a few short sections of the route where the cycling surface is bumpy. Overall the quality of the cycle route can be described as very good. There are some hills in this variant and therefore you need to be in good shape.
