Tour character

The bike routes require a basic level of fitness, which you should have acquired by occasional or daily cycling. The routes can reach an altitude of about 100 – 300 metres. The daily routes of 20 to 40 km cover hilly and mountainous terrain and can be completed without time constraints.

Only sometimes steeper climbs, of course it is okay to push your bike. The roads are mostly asphalted and there is little traffic outside of holiday-periods.
