

Munich - Merano

CROSSING OF THE ALPS MADE EASY.

The subtitle already gives it away ... During this stunning holiday starting from the Bavarian state capital via the Reschenpass all the way into the cultural city of Merano even not so experienced cyclists gleefully manage to cross the Alps. You are accompanied by marvellous views en route along Lake Starnberger See. The historic so-called Lüftmalerei-paintings on the front of the houses in Garmisch-Partenkirchen and Mittenwald will fascinate you. You will marvel at the views onto Mount Zugspitze, the Karwendel mountains and Mount Ortler. And a best-developed cycle path in South Tyrol will magically bring a smile to your face. In Merano at the latest you will agree how diverse and comfortable crossing the Alps can be.

Itinerary

DAY
1

Arrival in Munich

Bavaria's state capital awaits its visitors with numerous sights (English Garden, town hall, 'Hofbräuhaus',...).

DAY
2

Munich – Lake Starnberger See | approx. 45-60 km

From Munich through the Forstenrieder Park onto Lake Starnberger See. From Starnberg on the cycle path directly along the lakeside to Ambach or onwards to Bernried. The lake tempts you with crystal-clear waters and the views are fabulous onto the surrounding mountains.

DAY
3

Lake Starnberger See – Garmisch Partenkirchen

| approx. 65 km

Initially a cycle tour past Lake Riegsee to Murnau. Onwards through the nature reserve Murnauer Moos (Central Europe's largest marsh area) and through unspoilt nature following the river Loisach to Garmisch Partenkirchen. Here you have the option of a ride with the Zugspitzbahn up to an altitude of 2962 m (autonomously). From up there you enjoy a stupendous view over the Alps.

DAY
4

Garmisch Partenkirchen – Mittenwald – Leutasch

| approx. 40 km

Today you proceed along the beautifully developed cycle path all the way to the river Isar. You cycle through the sunny high mountain valley with marvellous panoramic views onto the Karwendel- and Wettersteingebirge-mountains to Mittenwald. Here we highly recommend a break and to take a stroll through the village with its Lüftmalerei-painted houses. You then continue in a spectacular fashion through the Leutaschklamm-ravine to Austria. You cycle along the Leutasch-stream through the stunningly beautiful valley all the way into your Day Finish.

DAY
5*Leutasch – Imst* | approx. 50 km

Today you cycle over into the Inn-river valley. You leave Leutasch on a country road leading you on gently hilly terrain before an eight-kilometre long descent takes you to Telfs. You cycle on the former towpath along the river Inn and so reach Stams with its Baroque Cistercian monastery. Then via Haiming it is not far to Imst, the so-called „North Tyrolean Merano“.

DAY
6*Imst – Burgeis/Mals* | approx. 50 km + bus transfer

Today, you will cycle along the river Inn, past the monastery Zams to Landeck. A bus will take you to Nauders from where you will cycle less than 100 metres in altitude uphill to the mountain pass Reschenpass. From there, you will cycle downhill to Lake Reschensee and continue on minor roads to Mals (many towers in the centre) or to Burgeis at the foot of the castle Marienburg.

DAY
7*Burgeis/Mals – Merano* | approx. 65 km

Your day starts with a trip to Glurns (perfectly preserved medieval city walls). Then, you will cycle via the Montani ruins, through Schlanders, down to Merano. On your way, you will come across some pretty castles (mountaineer Reinhold Messner's castle Juval) and you will get marvellous views of the impressive mountain massif Ortlermassiv and the mountain pass Stilfserjoch. Since 2004, the Venosta train (Vinschgaubahn) has been operating again between Mals and Merano. You can almost always take this train to travel a part of your journey.

DAY
8*Departure or extension*

Now it would actually be nice to add a few more days ... It is also a great way to continue the tour all the way to Lake Garda.

Tour character

You cycle on marvellous cycle paths and little side roads and only on very short sections on main roads. Nearly every day there are small ascents to be tackled. The Reschen-pass will be bypassed via a bus transfer, then follows a descent of approx. 1200 metres in altitude to Merano. The route is mainly asphalted, a few longer sections also on well-maintained dirt roads.
