Majorca Bike & Finca

AROUND SON CANALS.

Better living in Majorca! And indeed typical, as the Finca we have chosen for you is a real dream under the Spanish sun. In the middle of the island, located on a hill, you will get into the holiday feeling very quickly. Additionally there is a great bike program awaiting you: You cycle on silent paths to dreamy fisher villages, to wonderful protected areas, and to one of the most beautiful beaches of the island. Upon request you visit the capital city Palma with a tourist guide, you cross the island to the bizarre Tramuntana mountain range; you visit the most beautiful market of the island in Sineu and the sandy beach of Pt. Pollenca.

What makes the bike tours so special besides impressing nature, are the intuitive chosen stops, which assure the perfect Mediterranean holiday feeling: Typical Majorcan "Pa amb Oli" (bread and olives) in a rural tavern, a Majorcan sausage buffet in a typical butcher's shop or the lunch in a beach bar. And in the evenings you relax wonderfully at the pool of the Finca and enjoy the sunset. More beautiful and exciting a biking tour on Majorca nearly cannot be!

Itinerary

DAY
1

Arrival to Son Canals/ Sa Barcella

Bienvenido, hola and welcome under the Spanish sun! Your bike domicile Finca Son Canals is located beautifully between Petra and Son Serra de Marina in the rural middle of the island. Swim a bit in the pool and look forward to the upcoming bike days on the beautiful terrace.

DAY
2

To the fishing village Porto Colom | approx. 50 km

Do not forget your swimming togs today! You cycle to the fishing village Porto Colom. After crossing the city of Petra an "adventurous path" leads you to Vilafranca. Here you can make a detour onto the Puig de Bonany, it is worth it although it is a bit exhausting. In Vilafranca many small "Garagentiendas" with fresh vegetables and fruits and other Majorcan food is awaiting you. Afterwards you continue along beautiful bike routes to the South-eastern coast, to fishing village Porto Colom. At the dreamy harbour many cafes and restaurants can be visited. You continue past white mansions and the protected area Mondragó to reach the turquoise-coloured bay of Porto Colom. Take your swimming things and enjoy the sea. In the evening you will be transferred back to the Finca.

DAY
3

Off to the centre of the island | approx. 50 km

On this stage it goes to the centre of the island. You explore with your bike the original Mallorca with its wide fields and plains. Time seems to have stood still in Costitx, Lloret and Búger, everything seems so sleepy, but also familiar. If you are looking for a sportive challenge, you are in the right place today: the Puig de Sta. Magdalena with its 510 metres height and 6% gradient is calling. Psst, you can drive around him, too! Back again in Sineu/Petra you enjoy your further stay.

DAY
4*Tramuntana Mountain Range* | approx. 55 km

Did you sleep well? Wonderful! Along nice country roads and old paths you cycle across the island. Your goal: the steep, Tramuntana mountain range. But don't stress yourself – at the half of the route, in Montuiri, in a rural Majorcan tavern a typical "Pa amb Oli" is awaiting you for refreshment. You will be excited, how good "simple food" tastes, especially after a few beautiful kilometres by bike. Afterwards you continue along dreamy paths, past almond- and olive groves and numerous vines to the foot of the Tramuntana mountain range. Transfer back (bus/train) to your Finca afterwards.

DAY
5*Market day* | approx. 60 km

Today is market day, as on Wednesdays the visit of the market in Sineu is program. Only a few kilometres have to be managed from your Finca to reach the most beautiful and oldest market of the island! The scenery is imposing. All senses are provided with incentives. Enjoy the smell of the fruits, which are offered from the dealing market-women, or the smell of the sheep, which can be bought there. You will meet inhabitants, farmers and tourists who are enjoying the market. On your return journey you visit the small village of Maria la Salut. A typical and tasty Majorcan snack is waiting for you in Petra. This guarantees that you do not continue hungry back to your Finca.

DAY
6*A feast for cyclists' eyes* | approx. 70 km

After breakfast you will be transferred by mini-bus to the beautiful village Selva, located at the foothills of the Tramuntana mountain range. Here starts your bike tour. In front of picturesque mountain scenery you cycle to Campanet with its worth-seeing, bizarre cave and the springs of Ses Fonts Ufanés. Below the Puig Tomir you cycle past wonderful blooming meadows with almond-, olive- and fig trees – this is really a feast for cyclists' eyes. Enjoy the cycling until you reach Port Pollença. Here you should take the possibility for a bath in the sea, furthermore we recommend spending some time in the lively harbour. Afterwards the sea accompanies you on your left side, and you continue along the coast to Alcúdia. You leave the coast and cycle into the breadbasket of Majorca, where you pass the protected area S'Albufera on your way to Muro. The last kilometres back to your Finca lead you through a landscape of reed and fields, and in-between: water- and wheat mills again and again.

DAY
7

Take a bath and marvel | approx. 50 km

On your last bike day a diversified mix of different paths is awaiting you, they bring you to the dreamy, "hotel-free" coastal village of Son Serra de Marina. Don't forget your swimming things and look forward to the most beautiful beach of Majorca, which is located in Sa Canova. Depending on the weather numerous kite surfers and surfers are in the sea and on the fantastic coast. After your bath, Restaurant "El Sol Sunshine-Bar" is awaiting you with tasty food. Although it is difficult to leave – you have to return to your Finca! But also the last kilometres won't disappoint you: along a rural path you cycle through a pine forest, don't be surprised if turtles, sheeps or black pigs (Pork Negre) cross your way.

DAY
8

Departure or extension

An exciting, diversified and with numerous highlights peppered bike tour unfortunately finds its end today. What a pity, but you have to return back home.

Tour character

The routes are leading through flat and slightly hilly terrain. The easy climbs can be managed also by pushing the bike. You cycle on side roads with less traffic (except when entering and leaving a city). Some shorter parts are leading across country lanes.

By the way: With the help of an electrically assisted bike this tour can be managed by everyone. And of course you can always rest a day to relax on the Finca.
