## *Time out at the river Inn*

### BETWEEN THE BAROQUE- AND THE 3-RIVERTOWN

Our charming 3\*\*\* country hotel is the ideal starting point for your cycle tours along the river Inn. Only a few kilometers away from "Austria's most beautiful baroque town", to Schärding with its colorful market place. In Passau, the Lower Bavarian city, you get to experience the junction of the rivers Inn, Danube and Ilz. There is plenty of time on this tour for you to enjoy the impressive scenery.

Take some time out by the river Inn!

# Itinerary

DAY  
1

## *Arrival to Wernstein am Inn*

Cycle tour to Passau approx. 20 km

You will be given your travel documents and the rental bikes shall be handed out (if booked). On your first day, you cycle to Passau! The "Innspitz" is very impressive because it is here that the river Inn, Danube and Ilz all merge together. After strolling through the city and visiting the cathedral, which has the largest organ in the world, you cycle through the forest along the German part of the river Inn and back to Wernstein, to your comfortable hotel.

---

DAY  
2

## *Schärding - Obernberg*

Cycle tour to Schärding and Obernberg approx. 15 –60 km

You start your day cycling upstream along the river to Schärding. The beautiful market square with its colourful buildings is a meeting point for both locals and tourists. Make sure to try out one of its numerous restaurants and cafes. If you are very leisurely cyclists, you might want to cycle back to the hotel after visiting Schärding, the sporty ones might want to cycle further upstream to reach the pompous abbey from the Stift Reichersberg. It coins this region since nearly 1000 years. After a tour you have the possibility to try some of the regional specialities and to do some wine tasting with some vines and liqueurs, which are produced there. Cycle on through the silent Innauen (bird sanctuary) to Obernberg where the beautiful market place with its rococo façade welcome you. You cycle back to Wernstein along the German side of the river Inn.

---

DAY  
3
